SERVICE DIFFICULTIES

OUR AIM is to render a service that will be satisfactory to our subscribers. We realize that difficulties will sometimes occur despite all our efforts to avoid them. On the Front Cover of this directory are shown the telephone numbers which should be called to report service difficulties.

IF AT ANY TIME difficulties are not promptly corrected or unsatisfactory conditions persist we shall appreciate your communicating the facts directly to the undersigned.

W. S. TAPPER, Manager

725 Madison St., Gary, Ind.

Telephone 9995

THE COUNTY CLERK

General Information for Subscribers

EXCHANGE SERVICE

Business service is furnished for use of subscribers and their employees only in their business and for such joint users on the same premises as may be contracted for by the subscribers.

Residence service is furnished for the use of subscribers and their families only at their residence and for such extra name users on the same premises as may be contracted for by the subscribers.

IDENTIFICATION OF EMPLOYEES

All employees of the Company whose duties require them to enter the premises of its subscribers for any purpose whatever are supplied with identification cards, each card bearing the photograph and name of the employee entitled to carry it. Any subscriber having the slightest doubt as to the identity or the right of the person representing himself to be an employee of the Company should inspect the credentials. Beware of persons misrepresenting themselves as employees of the Telephone Company.

ATTACHMENTS TO TELEPHONES

Telephone instruments have been designed as they are to produce the best results and are necessarily very sensitive and intricate. The various unauthorized devices offered for sale, which are supposed to improve transmission, eliminate noise, destroy germs, supplant the telephone directory, etc., are unnecessary.

Unauthorized devices get the telephone lines and instruments into trouble, and the Company, to protect its service, is compelled to remove them.

Subscribers' contracts provide that no instruments or appliances not furnished by the Company shall be attached to or used in connection with its instruments or lines.

DIRECTORY ADVERTISING

The Manager will furnish upon request any information regarding directory advertising.

TELEPHONE DIRECTORIES OF OTHER CITIES

Telephone directories of the principal cities in the United States and Canada will be obtained for any of our subscribers desiring them. Information in regard to securing these directories may be obtained by calling the Manager.

REGULATIONS AND TARIFFS

The tariffs of this Company are on file in each Business Office and may be inspected upon application.

A representative of the Company will lend any assistance necessary in securing information from such tariffs.

ERRORS IN THIS DIRECTORY

The Company cannot and does not assume any liability for damages arising from errors or omissions in making up or printing its directories. Please check your listing in the directory. If it is incorrect in any way, please call the Manager so that it may be corrected in the next issue.

TELEPHONE NUMBERS

It is a convenience to your customers to print your own telephone number on your letterheads, signs, etc. However, telephone numbers are subject to change and if used on stationery and other forms of advertising should, in the best interests of their service, be promptly corrected when, for any reason, a telephone number change is necessary.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams or radiograms to the Postal Telegraph Cable Company or the Western Union Telegraph Company.

By arrangement with these telegraph companies the charges for telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

When calling either of these telegraph companies, follow the instructions shown under its listing in this directory.

How To Use The Dial Telephone

THE FOLLOWING PAGES contain information that will help you secure the most value from your telephone service. It is to your interest to read them carefully.

I

OBTAIN THE CORRECT NUMBER FROM THE DIRECTORY

Before making a call, make SURE you have the correct number as listed in the current telephone directory. If the person, or firm, is not listed, dial "113" and ask "Information" for the number.

II

REMOVE THE RECEIVER

After you have made sure of the correct number to dial, remove the receiver from the hook.

III

LISTEN FOR THE DIAL TONE

The "dial tone" is a "humming" sound which can be heard as soon as the equipment is ready for the call. **Do Not Begin to Dial Before You Hear This Tone.**

Note: When calling from a coin box telephone, in addition to hearing the dial tone, it will be necessary to deposit a coin before you begin to dial, in accordance with the instructions on the card attached to the telephone.

IV

WHAT TO DIAL

If the desired number is a four or five figure number, dial each of the figures in the order in which they appear in the Directory.

V

HOW TO DIAL

SUBSCRIBER'S DIAL

To dial any figure, place your finger in the opening in the dial through which that figure is seen. Pull the dial around until your finger strikes the stop. Then release the dial and allow it to return to rest without interference.

For example: Assume the number desired is "9981."

1. Remove the receiver from the hook and listen for the dial tone, which is a steady "humming" sound.
2. After the dial tone is heard, place the finger in the opening in the Dial through which the figure "9" is seen and pull the dial around until the finger strikes the stop.
3. Release the dial and allow it to return to rest without interference. This is very important.
4. Proceed (as in steps 2 and 3 above) in the same way with the figures 9-8-1 in the order in which they appear in the directory.

Note: If before the dialing is completed, it is found that an error has been made, or if the finger slips from the opening while dialing, the receiver should be hung up. After a few seconds, remove the receiver and, when the dial tone is heard, dial the complete number.

VI RINGING SIGNAL OR BUSY SIGNAL

Either the "ringing" signal or the "busy" signal will be heard within a few seconds after you complete dialing.

The ringing signal is an interrupted "burring" sound, the same as is heard over a manual telephone. If, after hearing this signal repeated for a reasonable length of time, you obtain no answer, hang up the receiver.

The busy signal is a "buzz-buzz-buzz" sound, the same as is heard over a manual telephone. When this signal is heard, hang up the receiver before making another call.

Note: If, after dialing a number, you hear an interrupted busy tone which sounds like "buzz, buzz, . . . buzz, buzz" it indicates that you have dialed a number not in use. Hang up the receiver and verify the number by consulting the directory. Then take the receiver off the hook, listen for the dial tone, and after hearing it, dial the desired number.

A demonstration of the dial tone, ringing signal, busy signal, and the tone indicating that a number not in use has been dialed, may be had by dialing "Operator," and requesting a demonstration of these tones from the operator who answers.

VII HANG UP THE RECEIVER AFTER YOU HAVE FINISHED WITH A CALL

The dial telephone equipment is controlled by the calling subscriber and is restored to normal when the calling and called subscribers hang up their receivers. If a second call is desired, it can be made after the receiver has been hung up for a few seconds.

CALLS ORIGINATED AT DIAL EXTENSIONS OF PRIVATE BRANCH EXCHANGES

To make a call from a private branch extension equipped with a dial, remove the receiver from the hook, and when the attendant answers, say "Line please."

When the dial tone is heard, proceed in exactly the same manner as outlined

on the preceding page under "How to Dial."

ANSWERING INCOMING CALLS

Incoming calls should be answered as promptly as possible.

If no response is obtained upon answering a call and the dial tone is heard, the subscriber should understand that there is no one connected with his line and that any connection that may have been established has been released.

If no response is obtained and the dial tone is not heard, the subscriber should hold the line for a reasonable period awaiting a response, as it is probable that the calling subscriber, or a private branch exchange operator has temporarily left the line.

PARTY LINES AND SINGLE LINES WITH ONE OR MORE EXTENSIONS

If two or more telephones are on the same line and the receiver is removed from any of the other telephones while a number is being dialed, it will interfere with the call and make it necessary for the person dialing to hang up and dial over again.

After removing the receiver from the hook, always listen to make sure the line is not in use before attempting to dial.

If successive clicks are heard indicating that someone else on the line is dialing, wait until the dialing stops and then tell the person who is making the call that you have interfered with his dialing and hang up your receiver.

If, after you start to make a call, you hear another person on the line remove the receiver or hear successive clicks indicating that some person on the line is dialing, tell the other person that the line is in use and request him to hang up. When he does so hang up your receiver for a few seconds and dial the complete number again.

TO CALL ANOTHER PARTY ON YOUR PARTY LINE

Each party line subscriber is furnished with a card showing the name, address, telephone number and code of each of the other parties on the line.

To call another party on the same line refer to the card and dial only the code number opposite the name of the desired party.

After dialing hang up the receiver. Your telephone bell will ring at regular intervals until the called party answers. If the called party does not answer, you should stop ringing by removing the receiver from the hook and immediately replacing it. If you are on a party line and do not have a card showing the information referred to above, dial "Operator" and she will assist you.

TO CALL INFORMATION DIAL "113"

If you wish to obtain the number of a subscriber who is not listed in the directory, call "Information" by dialing "113" and give her the name and address of the person or firm desired.

TO CALL REPAIR SERVICE DIAL "114"

If your telephone is out of order, call Repair Service by dialing "114," using another telephone if necessary. Explain the nature of your trouble.

TO MAKE A LONG DISTANCE CALL DIAL "110"

Call the Long Distance operator by dialing "110". Give her the details of the call, including your own telephone number.

TO CALL NEARBY POINTS DIAL "OPERATOR"

To place calls to the nearby toll points shown in the list on page vi dial "OPERATOR," give the call to her and stay on the line until you are connected.

TO CALL THE TELEPHONE COMPANY'S BUSINESS OFFICE DIAL "9981"

All matters relating to new telephone service, removals, termination of service, directory listings, adjustments of accounts, collection of bills, etc., are handled at the Business Office of the Company.

To arrange for any of the above matters dial "9981" which will connect you with the Business Office.

Emergency Calls

FIRE—To Report a Fire..... Dial "7501"
POLICE—To Call The Police..... Dial "7501"
Emergency calls may also be made by dialing "Operator"

TO MAKE CALLS IF THE FIGURES ON THE DIAL CANNOT BE SEEN

To make a call, such as to report a fire or to call the police if the figures on the dial cannot be seen, remove the receiver from the hook and listen for the dial tone. When the dial tone is heard, place your finger in the opening in the dial just below the finger stop and pull the dial around until your finger strikes the stop. Then release the dial and let it return to rest. An operator will answer. Explain the situation, giving her your number and the details of your call, and she will assist you.

Gary, Ind.

FOR ASSISTANCE—DIAL "OPERATOR"

If, after repeated attempts to obtain a number you desire assistance in completing the call, dial "Operator," explain the situation, giving her the details of your call, and she will assist you.

**ALWAYS CONSULT THE
DIRECTORY FOR THE CORRECT
NUMBER**

How to Place Station-to-Station Calls to Nearby Places

When Station-to-Station service is desired to the following nearby points dial "Operator" and give the call to her and stay on the line until you are connected.

When Person-to-Person service is desired dial "110" and give the call to the operator who answers.

Toll Rates to Nearby Places From Gary
Rates Subject to Change Without Notice

Harvey, Ill.	.15	Valparaiso	.15
Highland	.10	Whiting	.10

For long distance and all other points not listed above dial "110" and give call to the operator who answers.

How to Make Long Distance Calls

First—Determine whether the lower priced Station-to-Station service can be used or whether Person-to-Person service is more suitable.

Second—Dial "110." When the operator answers, give her the details of your call, including the telephone number, if known, at the distant place, and wait for her directions. She will either request you to wait at the telephone without hanging up your receiver, or she will request you to hang up the receiver until you are called.

STATION-TO-STATION SERVICE From one Telephone to Another

This service is the connection of one telephone station with another telephone station at a distant toll point.

To obtain this form of service, tell the long distance operator that you will talk with "anyone who answers."

Charges on Station-to-Station calls may be reversed (at Day, Evening or Night rates) if the initial period rate is 25 cents or more, provided "anyone" answering at the called station accepts the charge. If the initial period rate is 20 cents such a reversed call is accepted at the 25-cent rate. When the initial rate is less than 20 cents, reversal of charges is made only under the corresponding Person-to-Person rate.

If the request for reversal of charges is not accepted as above, and the call is cancelled, then the regular Report Charge applies as under Person-to-Person service.

Station-to-Station Day Rates—4:30 A. M. to 7:00 P. M.

Station-to-Station Evening Rates—7:00 P. M. to 8:30 P. M.

Station-to-Station Night Rates—8:30 P. M. to 4:30 A. M.

On evening or night rates, reductions do not apply on calls where rate for initial period is 35c or less.

The time at the originating end, whether Central Standard or Daylight Saving, governs the charge at the time the connection is established.

vi

Gary, Ind.

How to Make Long Distance Calls (Continued)

Person-to-Person Service

From One Person to Another

All Hours, Day or Night. This service differs from the Station-to-Station service in that a particular person, or particular extension of a Private Branch Exchange, is called for instead of "anyone who answers the telephone" at the distant end. The rates for this service are not reduced during the evening or night hours. Charges for this service may be "reversed" or collected at the distant station if accepted by such station.

Owing to the fact that the Company may be unable, for reasons beyond its control, to complete calls for particular persons or Private Branch Exchange stations, this class of call is accepted only with the understanding that a Report Charge will apply, under the conditions outlined below, if a chargeable conversation does not result.

Appointment Call Rates are the same as those quoted for Person-to-Person calls. An appointment call is one on which connection is to be established at a specified time set by either party. Report Charges apply.

Messenger Call Rates are the same as those for Person-to-Person calls plus

a charge for messenger service required to notify the desired person to come to the telephone. In case the desired person cannot be secured, a Report Charge plus the Messenger Charges must be paid.

Reversed Charges — Messages or calls on which charges are to be "reversed," or collected at the distant end.

If you desire the charges reversed you should advise the operator when you place the call. If the called party refuses to accept the charges a Report Charge will be made unless the call is then completed as a Person-to-Person paid message.

Report Charge. A Report Charge is made if communication cannot be established on Person-to-Person, Appointment, Messenger or Reversed Charge calls for reasons beyond the Company's control.

No Report Charge is made if the call is completed nor in case the report returned is "busy," "out of order," or "don't answer," as applied to the called station.

For Additional Information dial "110."

General Information

Request for Charges. If you desire to be told the charge on any message, it will save time if you so advise the operator when you place the call. In the case of reversed charge calls it is important that you make the request when you agree to accept the charges. Otherwise considerable delay will result while she obtains the rate and computes the charge.

Bills for Toll and Long Distance Service cover the charges for one month preceding the date of the bill.

Report all Complaints of Long Distance Service to the "Long Distance Chief Operator," dial "110."

International Telephone Service

Transoceanic telephone service is available from your telephone to any point in Austria, Belgium, Czechoslovakia, Denmark, England, Finland, France, Germany, Holland, Hungary, Norway, Scotland, Spain, Sweden, Switzerland and Wales, and to many important cities of Africa, Australia, and South America. Telephone service is also available to any point in Canada and Cuba, and to the important cities of Mexico, secured by dialing "110". For three-minute conversations, the rates from Gary to the following points are:

Havana, Cuba	\$10.50	England	\$33.00	France	\$36.75
Mexico City, Mexico	9.00	Scotland	33.00	Spain	39.00
Quebec, Canada	3.25	Sweden	39.75	Czechoslovakia	39.75
Buenos Aires, Argentina	33.00	Norway	40.50	Genoa, Rome, Italy	39.00
Santiago, Chile	36.00	Germany	38.25	Hungary	40.50

"Ship-To-Shore" service is now available to and from passengers on several principal Atlantic liners including Homeric, Leviathan, Majestic, and Olympic while vessels are within range of the American shore. Rate from Gary, \$24.00 for three minutes. Dial "110".

Gary, Ind.

vii

Schedule for Computing Toll Charges

To ascertain **Evening, Night, Person-to-Person, Appointment or Messenger Rates** or **Report Charges**—first, find the **Station-to-Station Day** rate as shown in the Toll Rate table on page vi, then locate this rate in first column of table below, to the right of which will be found the desired rates:

STATION-TO-STATION RATES						PERSON-TO-PERSON APPOINTMENT or MESSENGER RATES			REPORT CHARGES
DAY RATES 4:30 AM-7:00 PM		EVENING RATES 7:PM-8:30 PM		NIGHT RATES 8:30 PM-4:30 AM		Three Mins.	Each Additional Minute

Numbers Frequently Called

You will find this space the most convenient place to list numbers which you call frequently.

Telephone numbers of local and out-of-town subscribers that cannot be found in this directory may be obtained by calling "Information."

Please do not copy old lists of numbers on this page without first making sure that they are correct by checking local numbers with the printed listings in this issue of the directory and by calling "Information" on the out-of-town exchanges.

[illegible]

viii

Gary, Ind.

REGULATIONS

WITH WHICH THE SUBSCRIBER HAS AGREED
TO COMPLY

To establish credit an applicant who is unknown to the Company is required to make an advance payment for not to exceed three months' service.

Where the cost of installation is out of proportion to the exchange revenue it produces, the subscriber will be required to pay a reasonable proportion of such cost.

Following the acceptance of the Company of an application for service, the Company assigns a telephone number, but this number is not a part of the contract and may be changed at any time at the discretion of the Company.

Under average conditions the Company requires ten days to arrange for and complete an order to install or move a telephone.

To guard against interference with the service unauthorized attachments with the telephone lines or instruments are prohibited.

For any complete failure of service, of which notice in writing has been sent to the Company's Business Office, and which has continued for more than twenty-four hours thereafter, an abatement of the contract charge shall be made for the period of such interruption.

The continuous use of a party line is limited to five minutes. Party line subscribers are necessarily associated on the line with others located nearest to them and using the same class of service. Mutual accommodations usual in public service of any kind, where two or more persons are jointly concerned, should be extended between party line users.

Where the service of a subscriber is temporarily discontinued and the telephone number is retained during absence on vacation, one-half the regular rental shall be charged, during such period, provided written notice of the temporary discontinuance of service is given to the Company in advance.

Bills are rendered once a month, to cover (a) one month's charges for local exchange service in advance, and (b) toll and other charges in arrears. Bills are payable at the office of the Company. If not paid on or before the fifteenth day after issuance of the bill, written notice calling attention to that fact will be sent to the subscriber; after which action the service may be discontinued, without further notice, if a settlement of the account is not made by the seventh day.

When settlement of the bill is made before telephone instruments have been removed from the premises, service will be restored upon payment of the following restoral of service charge:

- | | |
|--|--------|
| a. If service has been suspended one way only..... | \$0.50 |
| b. If service has been suspended both ways..... | 1.00 |

Measured Service, where furnished, is billed on a monthly period guarantee basis, the bill for each period to cover (a) the guaranteed charges for one month in advance, and (b) additional messages and toll in arrears. Failure to use the minimum guaranteed number of messages in any monthly period, or the use of messages in excess of such number, does not entitle the subscriber to any allowance in any other monthly period.

One incoming line (one-way service) furnished only for each individual two-way flat rate line or two-way trunk line.

Not more than two joint users will be allowed on P. B. X. or individual line service; and not more than one joint user in connection with a party-line subscriber.

* **Four Party Service** is furnished only where at least two subscribers within the limits of a single block apply for such service, or there is a vacancy on an existing circuit.

Two-party Service beyond the established exchange area will be furnished only where two parties outside said area, but within one-quarter mile of each other, apply for service at the two-party rate.

Four-party Service beyond the established exchange area will be furnished only when at least three parties outside said area, who are within a radius of one-quarter mile of each other, apply for the service at the four-party rate.

Rural Service is furnished only where at least two subscribers are secured for each one mile of line built.

Ownership of Facilities

All facilities provided by the Telephone Company, including directories, remain the property of the Company and are subject to the following regulations:

Foreign Equipment.—No apparatus or appliance not furnished by the Telephone Company shall be attached to or used in connection with the facilities furnished by the Company.

Directories.—Telephone directories containing the listings of subscribers, issued from time to time by the Telephone Company free of cost, are and remain the property of the Telephone Company. They shall not be mutilated and shall be surrendered to the carrier who delivers the subsequent issue. No binder, holder or auxiliary cover except such as may be furnished by or with the consent of the Telephone Company, shall be used in connection with any telephone directory furnished by the Telephone Company.

ix

Upstairs Downstairs *All About the House*

TELEPHONES where you need them—This is a modern way to add to the living comfort of your home. Many families nowadays have two or more telephone lines—with handy extensions. In such homes incoming and outgoing calls are seldom delayed, for the additional lines give assurance that at least one always will be available for use.

Business houses invariably add telephone lines when usage demands. Why not the same thing in the home?

Nearly every room in your house would be more liveable with a telephone in it.

The cost of extension telephones is small. Call our Business Office.

Busiest Telephone in the Home

NEARLY every woman spends a part of her day in the kitchen. Think how much time and trouble might be saved by having an extension telephone right in this busiest of rooms!

With a handy extension in your kitchen you order supplies *right on the spot*. And if the telephone rings when you are engaged in household chores you are right there to answer.

Modern telephone convenience demands telephones where you need them. And not the least of these needs is in the kitchen.

Prompt installation of needed extensions may be arranged for by calling our Business Office—or any telephone employee will take your order.

ARCHITECTS, OWNERS AND BUILDERS

Call Our Engineers FIRST and Save Costly Alterations

The Extensive Use of the telephone in hotels, apartment houses, large buildings and large residences, makes it essential that in buildings of these types provision be made to carry the large number of wires necessary for furnishing telephone service.

In Smaller Buildings and residences the entire concealment of the telephone service wiring can be arranged for at a very small cost if included in the building plans.

If Some Arrangement is not included in the original building plans, it may be necessary to make extensive and costly alterations after completion of the building, in order to conceal the wires running through halls and rooms.

The Engineers of This Company will be glad at any time to give architects, owners or builders the benefit of their experience in such matters without charge.

Write or Call Our Manager at Gary.

Give Your "Party" Time to Answer

Time passes slowly when you are waiting at the telephone for some one to answer your call. A few seconds may seem like a couple of minutes.

When you make a telephone call give the person you are calling plenty of time to answer. He may be far from the telephone or may not have heard it ring the first time. He may have been delayed in answering.

By waiting a short time you may save yourself the trouble of calling over again.

ILLINOIS BELL TELEPHONE COMPANY
BELL SYSTEM

One Policy • One System • Universal Service

Do You Get
FULL VALUE
Out of Your Telephone?

YOU do not unless you use it for out-of-town calls.

Your friends and relatives may be miles away in person but you can be face to face with them by telephone. Perhaps you write letters to them—fine, so far as it goes. But no letter can ever give you the pleasure of hearing their voices.

Your telephone will take you wherever you wish to go, quickly, conveniently and at small cost.

Bell lines reach everywhere in the United States and connect with Cuba, most of Canada, principal cities in Mexico and all telephones in the principal countries of Western Europe. Service is quick and accurate.

*"Its easy to find ~
Where to buy it"*

To find the telephone number of a
business concern you have in mind—

*First, locate the heading descriptive of the general
type of business. This will be found in its
regular alphabetical order.*

*Next, locate the desired concern and telephone
number by examining the listings under the
heading.*

To find where to buy the article
or service you want—

*First, locate the heading indexed by the name of the
article or service you wish.*

*Then, select from the listings the dealer with whom
you wish to do business.*

Under these headings may also be found
headings descriptive of particular kinds of
articles or services and the dealers in a
position to serve you. The advertisements
provide you with more complete buying in-
formation.

Trademark or brand names will be found
in alphabetical order according to the trade-
mark or brand name, also under the general
business classification.

If further information is desired please
call 9981

RUG

Oriental and Domestic

Cleaners and Dealers

We Own and Operate
Our Own Plant

Your rugs will last longer if
they are cleaned frequently.
The imbedded dirt and grime
wear away the fibres if left in
the rugs. Send us a rug today.
All we ask is a chance to clean
one rug and we know that you
will be surprised and delight-
ed when it is returned spot-
lessly clean, with the colors
as bright as new. We are
as near as your telephone.
Phone us today and our truck
will call immediately.

**How Many Telephone
Orders Do You
Receive Each Day?**

There are hundreds of people using
this directory daily as a Buyers' Guide.
How many of them know you are in
business? How few of them think of
you when they want to buy the thing
you could supply? Consider what it
would mean to your business if even a
few of these buyers would telephone
to you when they want anything in
your line. You can reach every one of
these telephone subscribers through
this Telephone Directory.
